

This workshop will focus on how **Healthy Living** will be the challenge for Kane County as we expand our planning horizon to 2040. This workshop is the fifth in a series of implementation workshops for Kane County's 2030 Plans. Traffic congestion, housing and water supply have been the three main challenges of the Plans. Each of these defines the health of our communities and ourselves.

Submit Your
HEALTHY PROJECTS
HEALTHY PLANS
 For Recognition

We know there are many great initiatives in Kane County to make our communities and our residents healthier. *Please tell us about them!* We're looking for ideas about how the built environment can promote healthy living. Perhaps it is a project that has been implemented—a cross-walk to improve walkability, a community garden or a mixed-use building that reduces car trips. Perhaps it is a plan—safe routes to schools, a LEED certified building or an energy plan.

Please submit the following information:

- Project Name, Location & Agency
- Brief Description (100 words or less about why this is a healthy project or plan)
- Who Does the Project / Plan Benefit?
- Pictures (at least one, maximum three)

Submit electronically by **April 29** to: WRDWorkshops@co.kane.il.us or mail in with your registration. *Keep it short & simple!* The best **HEALTHY PROJECTS** & **HEALTHY PLANS** will be presented and evaluated at the workshop to generate even better ideas!

Healthy Living is Smart!
