Re: Monthly Report

Finance and Budget Reports for FY17

Total County Budget, Finance Committee P-Card & Accounts Payable reports are included in the agenda packet for June 2017. Most of the variances appearing are normal for this time of year and are primarily the result of timing of revenue, expenditures and transfers. However, we continue to be concerned about the revenue shortfall forecasted for General Fund for the remainder of Fiscal Year 2017 as discussed later in this report.

The significantly higher than expected **revenue variances** seen in some departments are the result of internal transfers that occur at the start of the year. Examples of such transfers include: $2,158,613 of Grand Victoria Elgin Casino internal grants, a $1,000,000 budgeted transfer from the General Fund for capital projects, $722,417 of subscription fees from County Departments for KaneComm, a $600,984 subsidy for Court Security, and various transfers of pledged revenue for debt service.

The significantly higher than expected **expenditure variances** seen in some departments are the result of 1) encumbrances for expenses that will occur later in the year or in future years, 2) transfers out for the purposes mentioned above, 3) timing of some payments that are made at the beginning of the year (insurance premiums, maintenance contracts, etc…), and 4) timing of purchases related to large capital projects.

FY17 General Fund Operating Revenue Shortfall

Some progress has been made in reducing the General Fund forecasted revenue shortfall for Fiscal Year 2017. The $88,000 shortfall in the "General Revenue" department has been eliminated by increasing the forecasted revenue for a variety of miscellaneous General Revenue line items based on actual revenue collections through May. The $30,973 shortfall in the Information Technology Department will be addressed by generating more than the forecasted revenue and/or by reducing expenditures in the IT Department. The $205,000 shortfall in the Treasurer's Office will be eliminated by a transfer from the Treasurer's "Tax Sale in Error Fund". The $6,435 shortfall in the Office of Emergency Management will be offset by reducing expenditures in the Office of Emergency Management and/or the County Board Office. As explained in an email from Lisa Aust dated April 26, 2017, a total of $225,000 of the revenue shortfall in Court Services will be offset by reductions in expenditures directly related to the revenue (Juvenile Justice Center personnel and food costs). As stated in a memo dated May 2, 2017, Sheriff Kramer believes he will end the year in the black, which means the $560,000 forecasted revenue shortfall in the Sheriff's Office would be offset by increased revenue and reductions in expenditures in the Sheriff's Office. After taking these expected increases in revenues and reductions in expenditures into consideration, the net revenue shortfall that remains to be addressed in the Circuit Clerk's Office, Court Services, Judiciary and State's Attorney's Office is now **$1.7 million**. (See attached forecasted revenue report for details.) We are seeking direction from the County Board as to how to address this $1.7 million revenue shortfall in the General Fund to avoid ending the year in a deficit.

Direct Tax Revenue

YTD Sales Tax collection through March is **4.77%** ($286,396) over prior year.
YTD Use Tax collection through March is **9.04%** ($54,892) over prior year.
YTD RTA Sales Tax collection through March is **3.78%** ($257,491) over prior year.

YTD Video Gaming Tax collection through June is **96.10%** ($69,416) over prior year.

Shared Tax Revenue
YTD State Income Tax revenue through May is **-4.66%** ($159,235) below prior year.
YTD Personal Property Replacement Tax through May is **22.77%** ($201,915) over prior year.

Court Security Fees
YTD Court Security Fees revenue through April is **-9.23%** ($89,961) below prior year.

General Fund Contingency Balance
$1,084,597 of the General Fund Contingency for FY17 is available for general need.
$ 50,000 of the General Fund Contingency for FY17 is reserved for Adult Prisoner Room & Board.

Probation Salary Reimbursements
Due to the State of Illinois cash flow and budget issues, approximately **$4.2 million** of Probation Salary Reimbursements from the State for the months of July 2016 through May 2017 are currently outstanding. There is normally a lag of 6 months or so, but this is the first time it is approaching 12 months. When contacted, the State Comptroller's Office indicated that they are making payments on a first-come-first-served basis, and have no idea how long it will take to reach our reimbursement requests in the queue. We have recently received $138,000 in payments from the state towards this outstanding balance.

Capital Fund
As of 6/16/2017, **22.5%** of the FY17 Capital Budget is expended, leaving **$1,841,787** available.

FY18 Budget Process
Most department and office budgets have been submitted and the initial review by the Finance department has begun. The initial review merely checks for accuracy, completeness and adherence to budget guidelines.

It has been determined that the "Enhanced Finance and Budget Committee" will meet weekly on Thursdays. Summary:

The annual payment amount by Kane County to the Aurora Election Commission is determined by a formula prescribed by state statute 55 ILCS 5/5-1025. The annual payment amount is calculated by taking the Equalized Assessed Valuation (EAV) for the Kane County Portion of the City of Aurora and comparing to the base line EAV, which is the 1985 EAV. The resulting fraction is multiplied by the base payment amount of $95,922.13 to arrive at the payment amount due to the Aurora Election Commission. The amount due to the Aurora Election Commission in Fiscal Year 2017 is calculated as follows: $1,562,830,126 divided by $372,734,439 multiplied by $95,922.13 equals $402,189.81. However, only $365,000 was budgeted for the payment for FY17. Therefore, a budget adjustment for the difference of $37,190 is necessary.

Scope Review - Response

Dear Mr. Allen,

We have reviewed our bid in response to the scope review meeting that was held on Tuesday May 16, 2017.

As discussed in the meeting, the scope item mentioning BACnet thermostats and discharge air temperature sensors for the constant volume RTUs (base bid #1) was noted as excluded on the submitted bid form and is not included in our pricing. We misunderstood the intent of the specifications and believed that the RTUs were already integrated with the existing control system.

Additionally, after review of our pricing for base bid #2, the labor to reprogram the existing JCI Metasys controllers and the potential need for additional I/O to accommodate modulating actuators was not included in our pricing.

Based on the two items above, AMS wishes to be removed from the list of vendors being considered for this project.

Sincerely,
AMS Mechanical Systems, Inc.

Re: Kane County 2017 Mechanical Improvements Project Bidder Recommendation

Dear Don:

The Kane County 2017 Mechanical Improvements project was put out to Bid in April 2017. Three contractors obtained bidding documents. There was a walk-through scheduled to allow prospective bidders access to the site. At the bid opening date of May 12, 2017, we received 3 bids which were opened publicly for the aforementioned project.

The attached Bid Tabulation document illustrates the recorded bid and the plan holders. There were multiple base bids and alternates that were required for the project. The lowest responsive and responsible bidder for the project was Mechanical Incorporated for a total bid of $316,391.00, which includes Base Bid 1, Base Bid 2, Alternate #1, Alternate #2, Alternate #3, Alternate #4, and Alternate #5.

Following the Bid Opening, we proceeded to do a project scope reviews with the lowest two Mechanical Bidders on 5/15/17 and 5/16/17 to ensure that they fully understood the project and the contract requirements. The scope review with the lowest Mechanical Contractor, AMS Mechanical Systems resulted in the exposure of multiple bidding & scope understanding issues which later resulted in this Contractor sending us a letter asking to rescind his bid. We also scoped out the second lowest Mechanical Bidder, Mechanical Incorporated. (Mechanical Inc.) they acknowledged full understanding of the scope and acceptance of the terms and conditions. We also reviewed their qualification statement and references and are satisfied that they meet our recommended standards. As such, it is our recommendation that Mechanical, Inc. be awarded the Mechanical Contract for the bid total of $316,391.00 in accordance w ith the bidding documents for the aforementioned project.

Thank you for this opportunity to serve Kane County on this critical project that will benefit all of tax payers of the County. Should you require any additional information or clarifications, please do not hesitate to contact me.

Respectfully submitted,

Court Case Management Project Report

May 2017

Submitted by: Bob Enright, CMS Project Manager
Sponsor: Roger Fahnestock, ITD Chief Information Officer

Project Overview:
The Kane County Court Case Management Project is a joint effort between the Judiciary, Circuit Clerk, States Attorney Office and Public Defenders Office to implement the full-featured commercial court case management system provided by Tyler Technologies called Odyssey. Once implemented, Odyssey will enable information sharing between Kane County Justice Partners in a timely, accurate and efficient manner.

Project Status

Project Close Out – The implementation of Odyssey is complete. The final invoice of $57,234 for the implementation of the Administrative Office of State Courts integration is still pending. This is the final development from the original project and is still being tested. As soon as the State certifies the case information being transmitted from Kane's new system is correct we will pay the invoice.

Close out report – A project closeout report is will be prepared for this committee.

Post Go-Live – Several projects are on the near term horizon for 2017:

- **VINES** – The Victim Impact Notification System has been implemented.
- **ADR** – Automated Disposition Reporting (ADR) for the State of Illinois continues to be reviewed with the State of Illinois, Tyler and Kane.
- **E-file Illinois** – Law Medium (LM) and Chancery (CH) cases will be filed electronically starting in July. Additional cases types will be phased in each month. All civil case types must be electronically filed by January 2018.
- **SDU** – Several thousand Child Support Payments are manually entered into the system each month. This process will be automated in July.
- **Electronic Traffic Citations** – Five police departments in Kane County will be implementing e-citation. The initial phase will allow the agency to create a citation in less time, improve accuracy and will be live at the end of June. At the completion of the next phase citation data and the citation image into the Circuit Clerks system.

Governmental Accounting

Established in 1984, the Governmental Accounting Standards Board (GASB) is the independent, private-sector organization based in Norwalk, Connecticut, that establishes accounting and financial reporting standards for U.S. state and local governments that follow Generally Accepted Accounting Principles (GAAP).

The GASB standards are recognized as authoritative by state and local governments, state Boards of Accountancy, and the American Institute of CPAs (AICPA). The GASB develops and issues accounting standards through a transparent and inclusive process intended to promote financial reporting that provides useful information to taxpayers, public officials, investors, and others who use financial reports.

The Financial Accounting Foundation (FAF) supports and oversees the GASB. Established in 1972, the FAF is the independent, private-sector, not-for-profit organization based in Norwalk, Connecticut responsible for the oversight, administration, financing, and appointment of the GASB and the Financial Accounting Standards Board (FASB).

Governmental Accounting – Fund Types

GASB's first pronouncement statements were issued in the 1980s. Some have been amended or superseded over the years, but certain basics remain essentially unchanged. All funds fall into one of eleven different fund types which, in turn, can be classified into one of three categories;

1. Governmental Funds

2. Proprietary Funds, or

3. Fiduciary Funds

Governmental Accounting – Fund Types

For the purposes of this presentation I want to focus on two fund types

1. Governmental Funds – specifically Special Revenue Funds and

2. Fiduciary Funds – specifically Agency Funds

Governmental Accounting – Governmental Funds

GASB 54 was issued in 2009 and first applied to our fiscal year 2011. Among a host of other topics GASB 54 clarified the definition of Governmental Funds.
Governmental Funds include the following fund types:

- General Fund
- Special Revenue Funds
- Capital Projects Funds
- Debt service funds, and
- Permanent Funds

Governmental Accounting – Special Revenue Funds

GASB 54 further defined Special Revenue Funds. Key elements of that definition are as follows:

- Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

- The term proceeds of specific revenue sources establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

- Special revenue funds should not be used to account for resources held in trust for individuals, private organizations, or other governments.

Governmental Accounting – Governmental Funds

It is important to notice that Fiduciary Funds, including Agency Funds, **<u>are not Governmental Funds.</u>**

Governmental Accounting – Fiduciary Funds

GASB 84 (issued in January 2017) has re-visited the topic of Fiduciary Funds, and required changes will first apply to our 2020 fiscal year. However there are certain aspects of Fiduciary Fund accounting that still currently apply. There are four types of Fiduciary Funds, as follows;

1. Pension (and other employee benefit) trust funds

2. Investment trust funds

3. Private-purpose trust funds, and

4. Agency Funds

Governmental Accounting – Agency Funds

As per Generally Accepted Accounting Principals (GAAP), Agency Funds are used to account for assets held solely in a custodial capacity. Assets must equal liabilities. **There are no revenues or expenses because the assets do not belong to the reporting entity.**

- Agency Funds typically involve only the receipt, temporary investment, and remittance of assets to individuals, private organizations or other governments. An example of the proper use of an Agency Fund is for the collection of Property Taxes which will be held for a short period of time and disbursed to the various taxing bodies.

- **Agency Funds, by definition, are not Governmental Funds. They cannot be used for the collection of operational revenues or the payment of operational expenses.**

- In accordance with GAAP, those operational activities should be properly reported in a Special Revenue Fund.

Governmental Accounting – Agency Funds

On April 17, 2017 my office issued an internal audit report on the subject of Agency Funds. The audit findings and recommendations, as well as management responses, were included in the report.

In summary, there are certain funds currently improperly classified as Agency Funds. Because the activity is the result of revenues and expenses related to governmental activity, those funds should be re-categorized as Special Revenue Funds.

This is a significant change for a number of reasons including, but not limited to, the following differences. (1) All transactions – not just the net movement – of Special Revenue Funds is to be reported in the financial statements and (2) Special Revenue Funds are an integral part of the overall budgeting process.
