Hello:

Thank you for visiting the new Kane County website! We have worked hard to design an easy-to-use site that provides an unprecedented amount of public information for Kane County residents and others interested in learning more about our government – and we appreciate you stopping by.

Please take some time to explore all that our website has to offer. With just a click of your mouse, you can retrieve detailed information about your tax dollars, view updates on important community improvement projects, read the latest county news or use the search engine to find available documents about a topic of your choice. And the website calendar feature provides information about all meetings and county events scheduled on a given day.

These improvements bring a new level of transparency and accountability to county government, but it is just a start. We will continue to make changes and improvements over the coming months to make this website even more effective – and we need your help. Please let us know what you think and share your thoughts on how we can improve by clicking on the “Website feedback survey” on the home page, or by calling the County Board office at 630-232-5930.

Working together, we can make Kane County a model of open government in Illinois – and I thank you in advance for being a part of that effort.

Warmest regards,

Karen McConnaughay  
Chairman, Kane County Board
