About Lindsay & Associates

Lindsay & Associates, Inc. (L&A) is located in Aurora within walking distance of the Burlington-Northern train station – across the street from the Paramount Theatre. With a diverse client base of repeat customers, our projects include hospitals, medical office buildings, mixed-use, performing arts, schools and universities, parking structures, warehouses, retail, commercial, to name a few.

We employ a staff of highly creative, motivated, professionals with strong technical and business backgrounds. Due to our focus on overall customer service and project success, we seek individuals with big picture vision who understand the impact of structural decisions on our clients and members of the design team to determine the most practical solutions.

Self-starters needed to join a team of dedicated professionals. Strong computer skills and an ability to learn quickly are a must. Ideal candidate will be a problem-solver, think and work well under pressure, and have a solid background in a variety of structural projects in order to bring wisdom and experience to the position.
