## What To Do With Latex Paint

Latex (*water-based*) paint is not hazardous and is not accepted in our HHW programs.

Cans containing latex paint can be placed in your regular garbage, once the paint has been solidified. If there is just a small amount of paint remaining, take the lids off, and let

the paint evaporate outside. For fuller cans, mix in an absorbent (*kitty litter or oil dry work well*). Then leave the lids off and place the solidified cans in your regular garbage. Empty, dry metal paint cans and lids can be placed in your recycling bin.

## Medication Drop-Offs

Expired and unwanted pharmaceutical drugs can now be dropped off at the following locations. Both prescription and over-the-counter drugs are accepted. Pills and capsules should be placed in re-sealable plastic bags.

### Elgin Police Department

151 Douglas Street

### Geneva Police Department

## Did You Know?

- 85% of all the HHW collected is recycled or re-used in some manner. Pesticides and medications are destroyed in special high-temperature incinerators.
- Since 1992, some 60,000 Kane County residents have attended an HHW collection event, bringing in more than 5 million pounds of toxics for proper disposal
