March 10, 2020

**ADDENDUM 2**

**Request for Proposal: #13-020**

**Title: Natural Areas Monitoring Services**

The attention of all plan holders is called to the following questions received before the deadline of March 10, 2020. Answers follows the questions below in **bold**:

1. The adaptive management plan will include recommended maintenance activities for the Mill Creek SSA, but the awarded consultant will not be taking part in these activities under this contract, correct?  
***The awarded consultant will be responsible for implementing the adaptive management plan. Only the monitoring portion of the plan will be part of the awarded consultant's responsibilities. The SSA will retain a maintenance company that will be completing all vegetation maintenance needs. However, working with the contracted maintenance company to implement any recommendations based on the monitoring events, should also be included in the scope of work.***

Clarification on question #2 from addendum 1.

*In cooperation with the SSA, the awarded consultant will be responsible for facilitating the implementation of the adaptive management plan, not executing the plan. The awarded consultant will be responsible for the monitoring portion of the plan, as well as working with the contracted maintenance company to communicate the appropriate maintenance activities.*

Please acknowledge receipt of this addendum #2 in the space provided on Page 19 (Proposal Response Form) of the Proposal document. Thank you for your interest in the Kane County procurement process.

Regards,

*Theresa Dobersztyn*
