# TRANSLATION

1. Adopted Budget < Actual expenses and predicted (requested)

2. More cases + more autopsies + more tox + more unclaimed + more transports=

## Financial Overages in Budget

3. Do we continue on the same path or do we try to address on the front end.

# IDEAS WE CAN CONSIDER TO HELP

1. Hiring a Full Time Pathologist.

-Autopsy numbers are high enough to consider. Hiring a FT Pathologist would be less expensive even with benefits. Based on availability (shortage)

2. Hiring Two full time deputies would vastly reduce overtime and para deputy expenses. Even one would help.
