Application Timeline:

- CDBG Application Materials available online, December 3, 2021
- Application Workshop 10:00am December 15, 2021, via Zoom

Evaluation Criteria:

Before submitting an application for funding, the City **STRONGLY RECOMMENDS** that each agency review the City of Elgin CDBG Guidelines and to consider whether the agency has the capacity and processes in place to successfully comply with federal CDBG requirements. Staff are available to assist in answering any program related questions.

Please note that CDBG funds are awarded on a competitive basis. In addition to being evaluated for eligibility, completeness, and readiness to proceed, projects will be evaluated for their effectiveness at addressing a Consolidated Plan objective, the extent to which they will benefit the community (particularly lower-income residents), and their leverage of other resources. Additionally, applicants will be evaluated for their financial capacity and stability, as well as their experience, track record, and staff capacity to undertake and successfully complete the project they propose

Applicants must completely answer all questions in the application and include all requested information in order to be considered for funding. If requesting funds for multiple programs or projects, applicants must complete a separate application for each funding request.

Staff Consultation:

- *Facility Development and Improvement.* Applicants for these funds are **STRONGLY ENCOURAGED** to meet with staff to discuss a proposed construction project to determine project eligibility and to review the respective federal regulatory compliance requirements before submitting an application.
- *Stand-alone requests for indirect costs will not be considered.* Applicants who include indirect costs in their funding proposal must meet with Staff to discuss the cost-allocation plan that will be required as part of the application package. Indirect costs may relate to utilities, rent, mortgage payments, and other overhead costs. Federal regulations do not allow for CDBG funds to be used except as allocable to a CDBG activity. An application must clearly define the correlation between the CDBG activity and indirect project cost request. Unless the applicant clearly demonstrates the association, indirect costs will not be considered. If an applicant wishes to pursue indirect costs, it is required that they consult with Staff prior to doing so due to the regulatory requirements prior to requesting the funds.

Limitations:

The City of Elgin reserves the right to enter into a funding agreement with the Applicant(s) whose proposal(s), in the judgment of the City, best addresses City objectives. The selection of a project, however, in no way obligates the City to enter into a funding agreement with the selected Applicant.
