Community Listening Sessions for Kane County's Plan to Combat Climate Change

Kane County is extending an invitation to the public to attend upcoming Community Listening Sessions about the County's first Climate Action Implementation Plan (CAIP). The meeting will give residents, business owners and anyone concerned about Kane County an opportunity to learn from experts about existing climate conditions and data regarding the future impact of greenhouse gases. Participants will be able to ask questions and share feedback.

The CAIP will serve as a blueprint for Kane County communities to follow in implementing individual pro climate actions to protect and sustain the environment. Don't miss this opportunity to be a part of the solution.
