FOR IMMEDIATE RELEASE

Flood Warning Continues for Fox River at Algonquin

9:33 AM CDT, Tuesday, April 1, 2008

The flood warning continues for the Fox River at Algonquin until further notice or until the warning is canceled. At 8:00 AM Tuesday, April 1, 2008, the stage was 2.3 feet but was being affected by gate operations at the dam. Minor flooding is forecast. Flood stage is 3.0 feet. The forecast is that the river is expected to rise above flood stage by late Tuesday morning and continuing to rise to near 3.2 feet by this afternoon. The impact is 3.2 feet with some homes threatened by flooding in Richardson Subdivision near Algonquin.
