Herbert Ruh Trust
Rezoning property from F to F-1

Special Information: The 59 acre property contains an existing farmhouse from around 1900. The petitioners are local farmers and bought the property for the farmland. They have no need for the home and are seeking a rezoning to allow them to sell it off from the farmland. They will continue the remaining existing farmland.

Analysis: The Kane County 2040 Land Resource Management Plan designates this area as Agricultural. The Plan recognizes that not all land in this area is suitable for farming and that some land can be used for farmsteads and very low density residential uses.

Findings of Fact:
1. The rezoning will allow the existing home to be sold off from the farmland. The petitioners are farmers and bought the property for the farmland.

Findings of Fact Sheet – Rezoning

- The Kane County Zoning Board is required to make findings of fact when considering a rezoning. (map amendment)
- You should “make your case” by explaining specifically how your proposed rezoning relates to each of the following factors.

Ruh Rezoning
Name of Development/Applicant

December 6, 2015
Date

1. How does your proposed use relate to the existing uses of property within the general area of the property in question?
Since no changes in use are anticipated, except for separation of the subject farmstead from the tillable land, the present use will continue to be consistent with existing scattered single-family homes in the area.

2. What are the zoning classifications of properties in the general area of the property in question?
F District-Farming predominates and two F1 District-Rural Residential parcels are about ½ mile to the east.

3. How does the suitability of the property in question relate to the uses permitted under the existing zoning classification?
The size of the subject property renders it inappropriate for the existing classification and must be re-zoned to F1; the tillable land will continue to be used for a legitimate farming operation.

4. What is the trend of development, if any, in the general area of the property in question?
There is little or no development in the general area except for isolated parcels, like the subject property, that lend themselves to very limited uses.

5. How does the projected use of the property, relate to the Kane County 2040 Land Use Plan?
The proposed re-classification and use of the subject property is anticipated within the text of the 2040 Land Use Plan under Section 3.2 Agriculture and is, therefore, consistent with the 2040 Plan.
