Findings of Fact Sheet – Map Amendment and/or Special Use

- The Kane County Zoning Board is required to make findings of fact when considering a rezoning. (map amendment)
- You should "make your case" by explaining specifically how your proposed rezoning relates to each of the following factors.

Name of Development/Applicant: ___________________________ Date: ____________

1. How does your proposed use relate to the existing uses of property within the general area of the property in question?
   It fits the trend and character of the area, similar to other residential parcels on similar
   ___________________________

2. What are the zoning classifications of properties in the general area of the property in question?
   Mix of F-1, R-1, and Forest Preserve Properties.

3. How does the suitability of the property in question relate to the uses permitted under the existing zoning classification?
   There is a home currently on the property. The rezoning would allow the Forest Preserve District to sell this property to private buyers and have the existing residential use remain consistent with the zoning ordinance.
   ___________________________

4. What is the trend of development, if any, in the general area of the property in question?
   Agricultural and residential properties increase
   ___________________________

5. How does the projected use of the property, relate to the Kane County 2040 Land Use Plan?
   It is consistent with 2040 Land Use Plan.
   ___________________________
Kane County Forest Preserve District
Rezoning from F-District Farming to F-1 District Rural Residential

Special Information: The Forest Preserve District recently acquired this property which is part of a larger parcel. The overall property contains desirable natural features the District would like to preserve. The rezoning is requested so the existing home can be sold off separately from the remaining property.

Analysis: The Kane County 2040 Land Resource Management Plan designates this area as Proposed Open Space. This category includes areas recommended for both public and private open space and green infrastructure uses. The provision of additional open space and green infrastructure has historically been and continues to be a major priority of the County’s planning program. The areas indicated could become either major additions to existing public open space and green infrastructure or remain private and still serve as linear connections between large areas of open space. Open space and green infrastructure provide a number of valuable ecosystem functions. The remaining wetlands in the County are an important element of the open space and green infrastructure network. It has been recognized that wetlands provide important aquifer recharge, water quality and wildlife habitat functions.

Staff recommended Findings of Fact:

1. The existing residential use will not be intensified by the rezoning.
2. The rezoning will allow the existing home to be sold off from the remaining property.
