

YOU ARE INVITED TO A

# KANE COUNTY RECYCLING PRESENTATION

## *Rethink, Reduce, Reuse, and Recycle Right!*

Get the lowdown on how to recycle right. Jennifer will cover what can and cannot go in your curbside recycling cart, with a focus on plastics and organics. She will share top recycling tips that answer the most commonly asked questions, and respond to your questions.

Learn about where you can recycle other items, beyond the bin, at drop-off locations throughout the County: foam, electronics, books, hazardous waste, batteries, paint, & more.

Get the 2021 schedule of Recycling Events, and all of the things you can take to them, including the free confidential document shredding events for Kane County residents.

This session will include a 30-minute slide presentation with time for questions and answers.

**Date:** Wednesday, January 13th, 2021 (rescheduled from 1/6/21)  
**Time:** 6:00 pm - 7:00 pm  
**Location:** McHenry County Green Drinks, Environmental Defenders  
**Register in advance for this meeting, by clicking [HERE](#). After registering, you will receive a confirmation email containing information about joining the meeting.**

Jennifer Jarland has been the Recycling Program Coordinator for Kane County since 2011. Her work includes managing the electronics recycling sites, conducting recycling collection events, household hazardous waste program management, and public outreach. While managing, improving, and expanding recycling programs for Kane County, she also works with fellow Illinois County and Agency colleagues on broader state issues. She is an active member of the IL Task Force for Reducing Recycling Contamination and the IL Sustainable Materials Management Advisory Committee. She currently serves as the Chairman of the Board of the Illinois Food Scrap Coalition and as secretary on the Board of the Illinois Counties Solid Waste Management Association.

A student of life, Jennifer enjoys all things connected to people and our planet, like live music and poetry, making art out of found objects, biking, hiking trails, travelling the world when possible, exploring the Chicago urban jungle with friends, and growing food and composting in her Chicago home garden.
